

How are 2021 industry premium rates set?

The Saskatchewan WCB sets industry premium rates annually. The rate setting process ensures today's employers pay for the costs of today's claims.

STEP 1: Industry classification

- Employers are grouped into industry rate codes based on their primary business activity.
- This forms our classification system, which has 50 industry rate codes.
- The collective experience of all employers in each industry rate code determines the industry premium rate.
- All employers in the same rate code start with the same industry premium rate.

STEP 2: Industry premium rates

- An actuarial rate model is used to determine annual industry premium rates.
- Expected claims costs are projected for the upcoming year.
- Industry premium rate = costs/payroll.
- Premiums cover all current and future costs for claims that occur during the year.

STEP 3: Experience rating

- The Experience Rating Program adjusts the industry premium rate based on your individual claims experience.
- Employers can receive a discount or pay a surcharge depending on their claims experience.
- Reducing the number and cost of claims through injury prevention and workplace safety can improve your experience rating and reduce the WCB premiums you pay.

Remember: If you don't submit your Employer Payroll Statement by February 28 annually, you won't be eligible for a discount to your industry rate even if you have a positive claims experience.

R11 – Road Construction and Earthwork

Factors	2020	2021 (Calculated)	2021 (Adjusted)	% change (2020 to 2021)
Claims costs	\$1.096	\$1.109		
Administration	\$0.436	\$0.462		
Safety association	\$0.111	\$0.125		
Base rate	\$1.64	\$1.70	\$1.62	-1.2%

In early December 2020, employers will be able to view their industry rate, including experience rating, **through their online account only**. Sign up for your online account by visiting www.wcbask.com.

Your 2021 industry premium rate has been calculated at \$1.70. Due to the current economic climate, **the WCB has recalculated your industry rate to \$1.62.**

The premium rate above is the industry premium rate per \$100 of assessable payroll.

Rate explanation: Your rate code has realized an increase in its required rate as a result of a significant drop in projected payroll. Due to the board level hold, in 2021 you will save \$0.08 on your actual premium rate, however, you should be prepared for a potential rate increase in 2022.
