Roland Morris questionnaire

When your back hurts, you may find it difficult to do some of the things you normally do. This list contains some phrases that people have used to describe themselves when they have back pain. As you read the list, you may find that some phrases stand out because they describe you today. Think of yourself today. When you read a phrase that describes you today, put a check beside it. If the sentence does not describe you, then skip it and go on to the next one. Remember, only check the phrase if you are sure that it describes you **today**.
