

Case Management Regions

The Saskatchewan Workers' Compensation Board (WCB) uses teams to assist workers whose injuries require working with us for longer than two weeks of wage loss. All people who live in a certain area of the province will work with the same case management team. This gives better service because all team members work together on the recovery of the injured worker. They can also co-ordinate recovery and return-to-work plans with the employer and caregiver involved.

Each team has:

- A Team Leader
- Case Managers
- Case Management Support
- Vocational Rehab Specialists
- Payment Specialists
- Administrative Support, and
- Medical personnel available for specialized support.

Case Management teams are located in Saskatoon and Regina.

You will work with a **SASKATOON** team if you are an injured worker or an employer in:

- North-west region
- North-east region
- Saskatoon urban.

You will work with a **REGINA** team if you are an injured worker or an employer in:

- South-west region
- South-east region
- Regina urban.
