## **Customers' Perspective**

# **Balanced Scorecard**

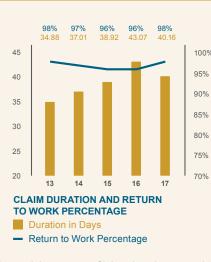

Our corporate strategy map documents our strategic objectives and shows how the four perspectives on the map link to reach our two overarching goals - worker and employer service excellence. We continue to use targets and metrics to track and analyze our performance. Each year the Board reviews and affirms the Balanced Scorecard.

#### At year-end 2017, employers .08 05 rated their satisfaction with claims services at 4.05 out of 5. down from 4.19 in 2016. The decline was driven by a number of claim services that involve a more in-depth 13 14 15 16 EMPLOYER SERVICE FEEDBACK

MISSION:

Measure — Target 4.20

Ninety-eight per cent of injured workers sustaining a Time Loss injury returned to work, achieving the WCB's 95 per cent objective, which is slightly up from 2016. Average duration, the measure of timeliness of Return to Work, decreased by 2.91 days to 40.16 days per Time Loss claim.

# **Enablers' Perspective**

The WCB believes that an engaged workforce is crucial to achieving a customer centric organization and evidence demonstrates that high engagement levels may lead to increased quality and timeliness in the services provided to the customer. An abbreviated engagement survey is administered to employees on a quarterly basis.

This is intended to allow the organization to respond to engagement issues in a timely manner, as well as track the success of any engagement initiatives during that period.

Averaged over the four quarters in 2017, just over 74 per cent of employees responded favorably to the questions in these surveys.

3.99	3.72	4.03	3.90	4.01	Worker satisfaction increased year over year. We believe
					this can be attributed to a focus on improving our call handling to be more accessible to our customers. The increase was also driven by improved communication in claim procedures (specifically clarifying what both the injured worker and the WCB need to do next in the claim process).
